

## **IN THE SPECIFICATION**

Please cancel the entire specification of the subject U.S. patent application, as filed, as constituted by the German language text of WO 2005/007406, in favor of the concurrently submitted Substitute Specification. That Substitute Specification is the result of the entry into the also concurrently submitted verified English language translation of WO 2005/007406, of a cross-reference to related applications, and of suitable section headings; the deletion of the List of Reference Symbols, and of references to the claims, the correction of minor errors in phrasing, grammar, punctuation and typing and a general revision of the verified translation to place the Substitute Specification more in a form in accordance with U.S. practice. The presentation of this Substitute Specification does not add any new matter. A marked-up copy of the verified translation, which shows the changes made to it, to arrive at the Substitute Specification, is submitted for the Examiner's review.
